INDEX TO VOLUME 41

Arthropods other than Insects

Haemogamasus ambulans, Morphology, I. Alimentary canal; J. H. Young, 101
Haemogamasus ambulans, Morphology, II. Reproductive system; J. H. Young, 532
Hypopial nymph (Glycyphagidae) from hair follicles of Eastern Chipmunk; K. E. Hyland and A. Fain, 429
Liacaridae, North American. II.; T. A. Woolley, 350
Macrocheles, two new species, Florida, and host-specific relationship with geotrupine beetles; G. W. Krantz and J. L. Mellott, 48
Millipeds, new species and records from Nuevo Leon, Mexico; H. F. Loomis, 382
Xylobates, a new species from Michigan; T. A. Woolley, 261

Anoplura

Anoplura, records from South West Africa; K. C. Emerson and K. C. Kim, 509

Coleoptera

Cicindela of North America north of Mexico, artificial key to species; H. L. Willis, 303
Disonycha glabrata, life history; R. Hemenway and W. H. Whitcomb, 174
Distigmoptera and *Pseudolampsis*, distributional and ecological notes, a new species; E. U. Balsbaugh and V. M. Kirk, 243
Epicauta pennsylvanica, population decline in fall of 1967; J. E. Mathwig, 544
Geotrupine beetles, host relationships to *Macrocheles* (*see* Arthropods.)
Hypera, Missouri distribution of species; R. E. Munson and W. R. Enns, 266
Popilius disjunctus, mechanical breakdown of hardwood in laboratory by; F. J. Preiss and E. P. Catts, 240
Zagymnus, new species; J. A. Chemsak and E. G. Linsley, 37

Collembola

Pond shore Collembola, redescription of *Salina banksii* and new Sminthuridae; L. P. Pedigo, 548

Diptera

Asilus, two species associated with animal burrows, a redescription of *A. gilvipes*; R. Lavigne, 334
Carreraomyia, new name for *Carreraia*; F. R. Cole, 543
Crane flies, new species from Tropical America. IV.; C. P. Alexander, 209
Desmatomyia, review of the genus; R. H. Painter and E. M. Painter, 408
Dolichopodidae, new from Nebraska; F. C. Harmston and W. F. Rapp, Jr., 247
Erynnia, New World species; H. J. Reinhard, 501
Euphytomima nomiivora, parasite of alkali bee *Nomia melanderi*; M. J. Moradeshaghi and G. E. Bohart, 456
Leptogastridae (grass flies), new family, compared with Asilidae; C. H. Martin, 70
Mosquitoes, evening crepuscular activity, Iowa; R. E. Wright and K. L. Knight, 45
Nephochaetopteryx, nine new species, Brazil; H. R. Dodge, 277
Nephrotoma, two new species, Nearctic; G. W. Byers, 395
Paroxyna albiceps, biology and immature stages of fruit flies; J. A. Novak and B. A. Foote, 108
Philornis flies from Trinidad; H. R. Dodge and T. H. G. Aitken, 134
Philornis, new and little-known species; H. R. Dodge, 155
Protolepidostola, placement of subgenus, two new species; F. C. Thompson, 270

Ephemeroptera

Ephemerella (*Ephemerella*), new species and records, western North America; R. K. Allen, 557

INDEX TO VOLUME 41

Arthropods other than Insects

Haemogamasus ambulans, Morphology, I. Alimentary canal; J. H. Young, 101
Haemogamasus ambulans, Morphology, II. Reproductive system; J. H. Young, 532
Hypopial nymph (Glycyphagidae) from hair follicles of Eastern Chipmunk; K. E. Hyland and A. Fain, 429
Liacaridae, North American. II.; T. A. Woolley, 350
Macrocheles, two new species, Florida, and host-specific relationship with geotrupine beetles; G. W. Krantz and J. L. Mellott, 48

Collembola

Pond shore Collembola, redescription of *Salina banksii* and new Sminthuridae; L. P. Pedigo, 548

Diptera

Asilus, two species associated with animal burrows, a redescription of *A. gilvipes*; R. Lavigne, 334
Carreraomyia, new name for *Carreraia*; F. R. Cole, 543
Crane flies, new species from Tropical America. IV.; C. P. Alexander, 209
Desmatomyia, review of the genus; R. H. Painter and E. M. Painter, 408
Dolichopodidae, new from Nebraska; F. C. Harmston and W. F. Rapp, Jr., 247
Erynnia, New World species; H. J. Reinhard, 501
Euphytomima nomiivora, parasite of alkali bee *Nomia melanderi*; M. J. Moradeshaghi and G. E. Bohart, 456
Leptogastridae (grass flies), new family, compared with Asilidae; C. H. Martin, 70
Mosquitoes, evening crepuscular activity, Iowa; R. E. Wright and K. L. Knight, 45
Nephochaetopteryx, nine new species, Brazil; H. R. Dodge, 277
Nephrotoma, two new species, Nearctic; G. W. Byers, 395
Paroxyna albiceps, biology and immature stages of fruit flies; J. A. Novak and B. A. Foote, 108
Philornis flies from Trinidad; H. R. Dodge and T. H. G. Aitken, 134
Philornis, new and little-known species; H. R. Dodge, 155
Protolepidostola, placement of subgenus, two new species; F. C. Thompson, 270

Ephemeroptera

Ephemerella (*Ephemerella*), new species and records, western North America; R. K. Allen, 557

Hemiptera and Homoptera

Balclutha, a new Brazilian, and new records; H. D. Blocker, 207
Blissinae, two new genera from Madagascar; J. A. Slater and D. B. Wilcox, 434
Empoasca fabae, maintenance on plants and tissue cultures of three bean varieties; A. K. Ghosh, J. T. Medler, and A. C. Hildebrandt, 331

Hymenoptera

Andrena (Thysandrena) candida, nesting habits, immature stages; N. N. Youssef and G. E. Bohart, 442
Anthophora flexipes and its cleptoparasite *Zacosmia maculata*; immature stages of latter; P. F. Torchio and N. N. Youssef, 289
Belandrena, new subgenus of *Andrena*; D. W. Ribble, 220
Eurytoma, new species from the U.S.; R. E. Bugbee, 403
Halictine bees, behavior within nests, social and solitary; S. W. T. Batra, 120
Heriades spiniscutus, a bee that facultatively omits partitions between rearing cells; C. D. Michener, 484
Iridomyrmex humilis, nest relationship of Argentine ant; G. P. Markin, 511
Mandibular gland development and communication in field bees of *Trigona (Scaptotrigona) postica*; C. Cruz-Landim and A. Ferreira, 474
Megalopta, nesting and foraging behavior in Costa Rica; D. H. Janzen, 342
Native bees, a method of mass colonization in artificial substrate; D. G. May and K. A. Stockhammer, 339
Neivamyrmex, a new species from Louisiana; J. F. Watkins, II, 528
Pachyanthidium, a new species; J. J.. Pasteels, 481
Peponapis pruinosa, nest construction and life history of eastern cucurbit bee; J. A. Mathewson, 255
Plenoculus davisi, nesting behavior; F. E. Kurczewski, 179
Pompilidae, North American, host records and factors in prey selection; F. E. Kurczewski and E. J. Kurczewski, 1
Pompilidae, North American, host records. First supplement; F. E. Kurczewski and E. J. Kurczewski, 367
Proteriades, ecology, and its *Chrysura* parasite, with larval descriptions; R. W. Thorp, 324
Pseudoplisus, new species from North and Central America. I: *P. phaleratus* group; R. M. Bohart, 494
Stimuli releasing digging behavior in western harvester ant; H. G. Spangler, 319
Trail-following by guests of army ants; R. D. Akre and C. W. Rettenmeyer, 165

Lepidoptera

Acrobasis caryae, pecan nut casebearer on mockernut hickory; E. A. Heinrichs, 236

Mallophaga

Coramenopon, new genus from *Menopon coracopsis* Mjöberg; R. D. Price, 41
Heterokodeia from neotropical parrots; R. D. Price, 516
Menacanthus, a new species from bobwhite quail; J. S. Wiseman, 57

Mecoptera

Bittacus, a new species from Congo; G. W. Byers, 34

Neuroptera

Corydalus cornutus, a male with antennal and tarsal anomalies; R. J. Elzinga, 60

Orthoptera

Cockroach egg capsules, structural features, VI. *Ischnoptera deropeltiformis*; F. A. Lawson, 419

Plecoptera

Alloperla, two new species from China; C. H. Nelson and J. F. Hanson, 425

Trichoptera

Trichoptera, new species, notes, western; D. G. Denning, 63

Ecology, Control, Morphology, Techniques

See: Haemogamasus (Arthropoda other . .), *Proteriades* (Hymen.), Trail-following (Hymen.), Mandibular gland (Hymen.), Native bees (Hymen.)
Tolerance of aquatic insects to heated waters; A. V. Nebeker and A. E. Lemke, 413

Book Reviews, 288, 568
